Plants are very important living things. Life can't go on without plants. This is because plants can make food from air, water and sunlight. Animals and man can't do so. Animals get their food by eating plants and other animals. Man gets his food by eating plants and animals, too. Therefore, animals and man need plants in order to live. If you look carefully at the plants around you, you will find that there are many types of plants. Some plants are large; others are small. Most plants are green.

( ) 1. Life can go on without plants.
( ) 2. Plants can make food from air, water and sunlight.
